Pressure
Compensation
Membrane

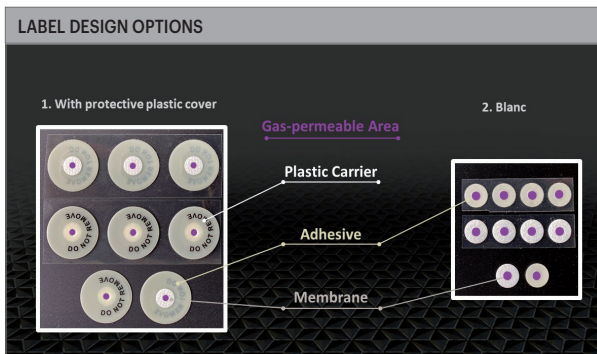

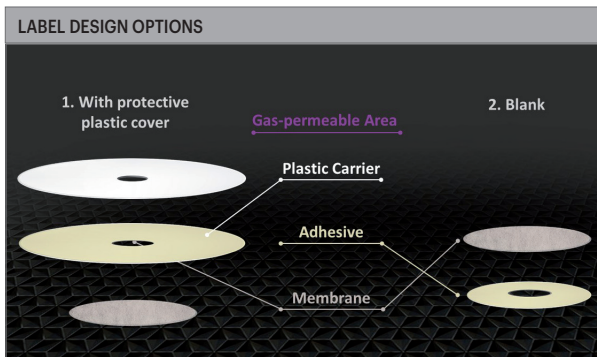

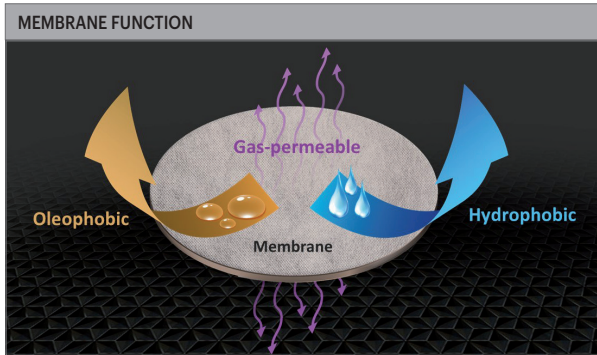

Benefit from the advantages

Efficient Flow

- pressure equalization, continuous and secure airflow (Min > 400 ml/min/cm²@7Kpa)
- can be integrated into any customer component individually
- manually, semi-automatically or fully automatically applicable
- easy product integration
- requires minimal space
- high automated, precise and clean manufacturing > single pieces, sheets, on roll
- ISO 9001 and IATF 16949 certified
- internal laboratory to measure all critical requirements > including airflow & water entry point
- excellent access to different raw materials to match almost all requirements

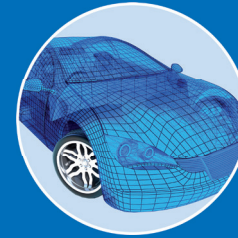

Product

- free of perfluorooctanoic acid (PFOA) > REACH and RoHS compliant
- repels water, oil, dust, and dirt
- breathable
- both sides are hydrophobic and oleophobic
- customized solution possible (integratable into type label)
